

Regency Road to Pym Street Project

WORKS NOTIFICATION

November 2020

Signal cabinet works along Regency Road, Ferryden Park

As previously advised, a gantry will be installed in the road median along Regency Road, near Romney Avenue, Ferryden Park.

Gantries are the overhead structures used to support mounted Variable Message Signs, Lane Use Management Systems and Closed-Circuit television (CCTV) (video security surveillance).

As part of the gantry install, two associated signal cabinets, sitting on a concrete pad, will be installed in the footpath, at the corner of Romney Avenue and Regency Road. Concrete pad works will be undertaken from mid-November 2020, with the cabinets to be installed in late 2020.

Nature and time of the works

The concrete pad works will be undertaken **between 6am and 6pm, Monday to Saturday, commencing Monday, 9 November 2020, for approximately one week**, weather permitting.

To safely undertake these works, there will be lane and speed restrictions required along Regency Road, near Romney Avenue.

How will the works impact me?

Traffic management and signage will be in place to alert road users to the changed traffic conditions.

Road users are asked to plan ahead and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Later in 2020, signal cables, the cabinets and the gantry will be installed. Advance notice will be provided closer to the works.
