

Regency Road to Pym Street Project

WORKS NOTIFICATION

November 2020

Drainage works along Pym Street, Croydon Park

As part of the R2P Project, underground drainage will be installed along Pym Street, between Austin Street and Charron Road, Croydon Park.

The drainage works will involve saw cutting of the road, trenching and laying drainage pipework.

Some noise disturbance and vibration can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents as much as practically possible.

Time of works and traffic management

To safely undertake the drainage works, there will be a street closure along Pym Street, between South Road and Austin Street (western side), and a lane closure along Pym Street, between South Road and Charron Road (eastern side).

Works along the western side will be undertaken at night between 7pm and 5am, Thursday, 3 December 2020, weather permitting. Pym Street will be closed to motorists, between South Road and Austin Street. Detours will be via Royce Avenue and Austin Street.

Works along the eastern side of Pym Street will be undertaken between 7am and 5pm, Friday, 4 December 2020, weather permitting. The left turn movement for motorists from Pym Street onto South Road will be closed. Detours will be via Charron Road and Overland Road.

Traffic management and signage will be in place to alert road users to the changed traffic conditions.
