

# Regency Road to Pym Street Project

TEMPORARY THROUGH TRAFFIC CHANGE:  
Early January 2021

## North-South Motorway and South Road temporary closure and alternate routes

### Early January 2021 traffic changes

In early January 2021, the overpass centre spans will be transported from the Polonia Reserve compound to their final location, over Regency Road, using Self Propelled Modular Transporters.

This will require a partial closure of the Regency Road and South Road intersection for one week.

Alternative routes for traffic include:

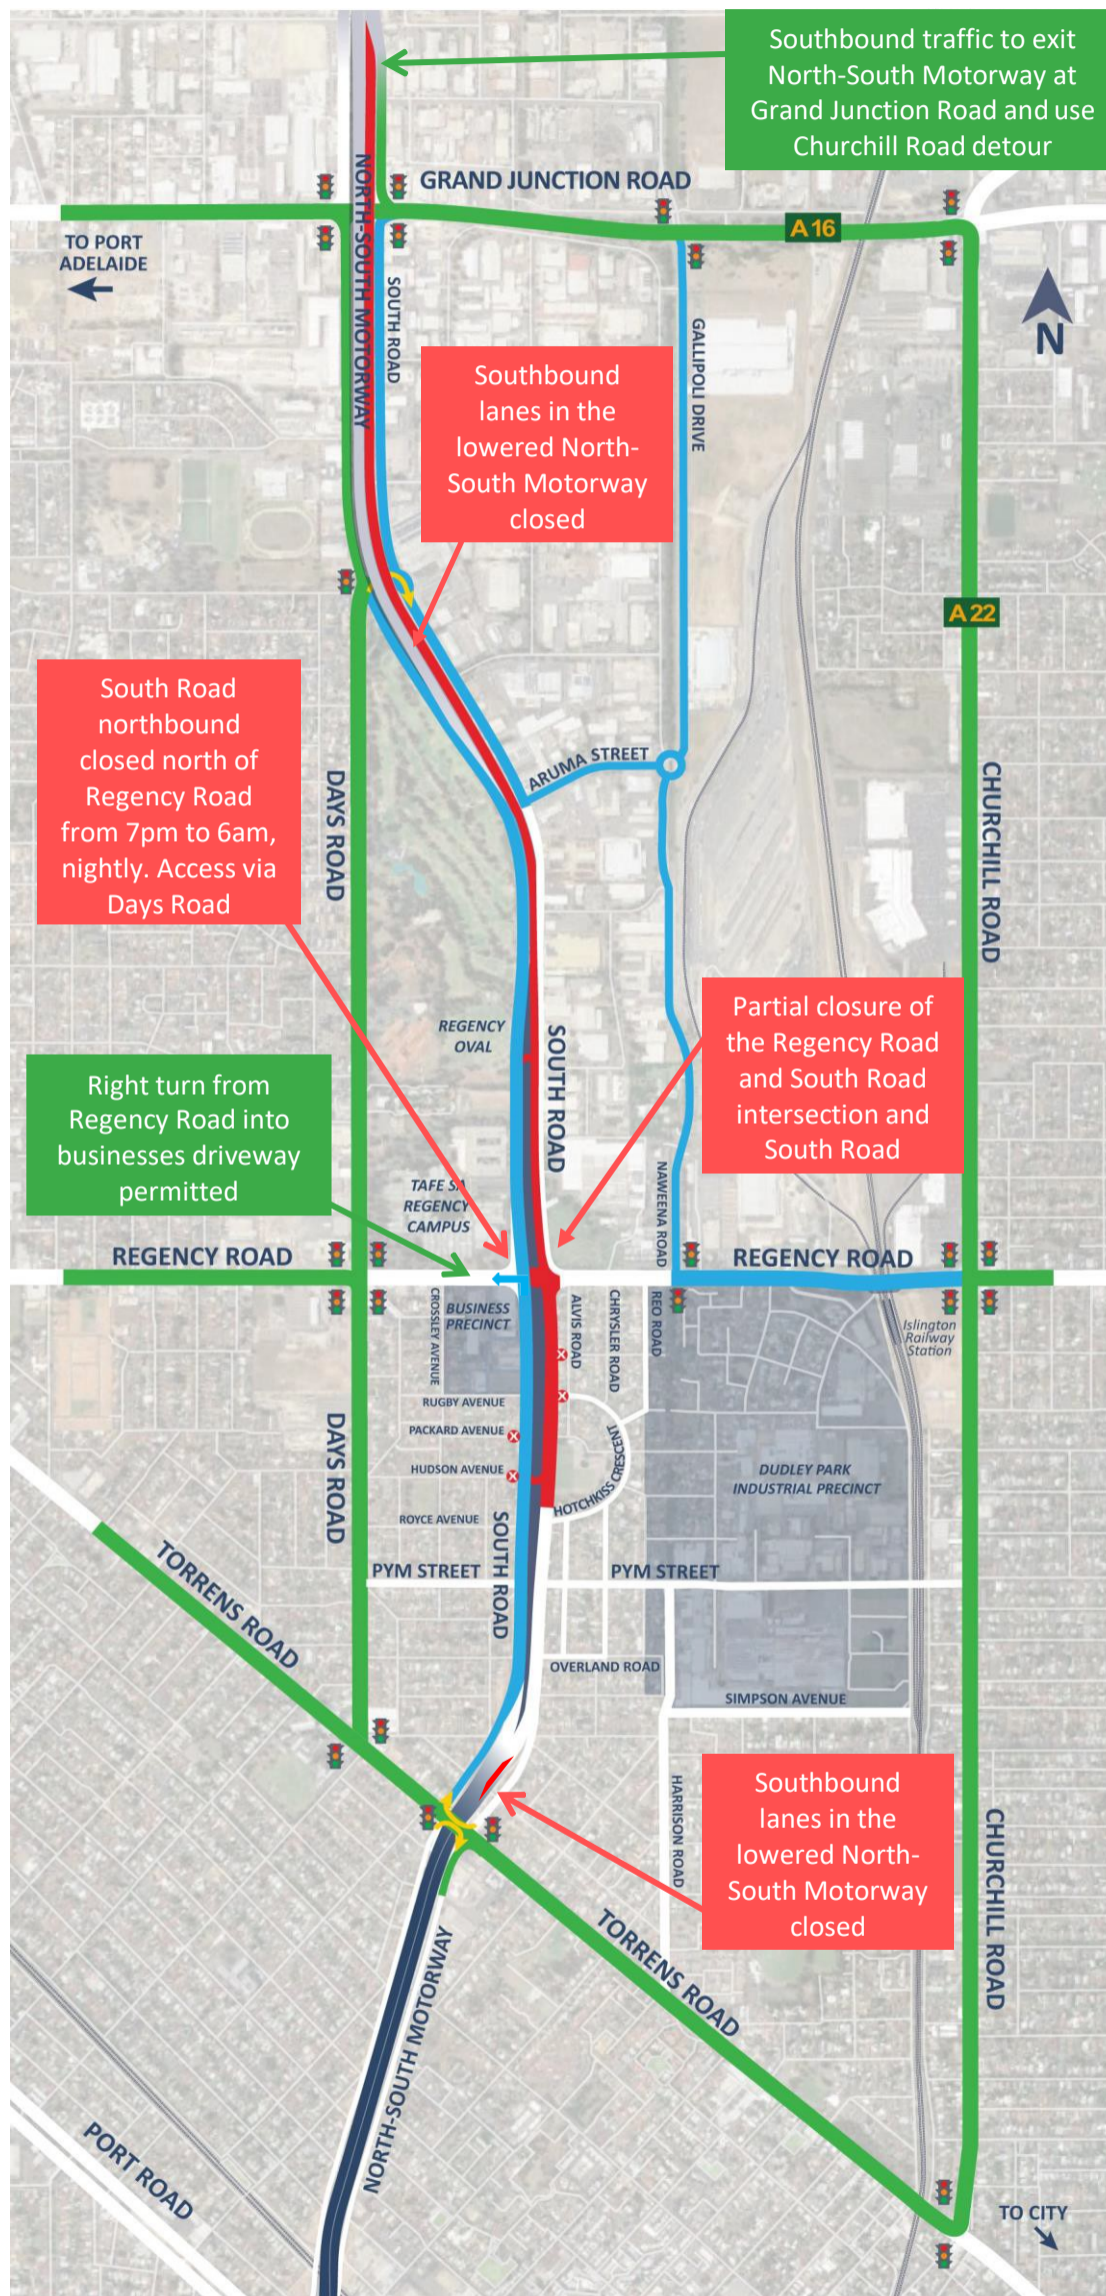

- southbound access via Grand Junction Road to Churchill Road, to Torrens Road and back to South Road;
- westbound access via Churchill Road to Torrens Road, then Days Road to Regency Road; and
- eastbound access via Days Road to Torrens Road, then Churchill Road back to Regency Road.

Northbound traffic using the North-South Motorway is not affected during the day (6am to 7pm) by this partial closure. A detour via Days Road will be in place from 7pm to 6am nightly.

\*Traffic conditions are subject to change, please follow traffic management on site.

### LEGEND

- North-South Motorway and South Road closures
- Alternate traffic routes
- Local and business traffic routes
- U-turn permitted
- Road permanently closed
