

# Regency Road to Pym Street Project

## WORKS NOTIFICATION

June – August 2020

### *Installation of drainage, water mains and construction of surface roads*

The Regency Road to Pym Street (R2P) Project is continuing the installation of underground stormwater drainage systems, water mains and construction of surface roads in preparation for an upcoming traffic switch.

#### **Where will the works be located and how long will the works take?**

Works are being undertaken along the North-South Motorway, Regency Road, South Road and adjoining local streets. Works will continue over the next few months.

#### **How will the works affect me?**

##### *Stormwater drainage systems*

Stormwater drainage installation is continuing along Regency Road, between Reo Road and South Road, the North-South Motorway and along both sides of South Road, in Croydon Park and Regency Park. These works are anticipated to be completed by August, weather permitting.

##### *Water mains*

Water main installation is continuing along Regency Road, between Reo Road and Crossley Avenue. All water main works are anticipated to be completed by the end of July, weather permitting.

Works will be undertaken at night, between 6pm and 6am, Sunday to Thursday. Noise impacts will be minimised to nearby businesses and residents as much as practically possible, however; some noise will be unavoidable.

Lane and speed restrictions will be required. Traffic management and signage will be in place to alert road users to any changed traffic conditions. Road users are asked to plan ahead and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

##### *Surface roads*

The construction of the surface roads is progressing well, with the first section of kerbing and asphalt recently completed along South Road (north of Regency Road).

Surface road construction will continue along the length of the project area and include the installation of concrete road barriers and the construction of footpaths.

Temporary closures of roads at their junction with South Road will be required and advance notice will be provided. Affected roads include Rugby Avenue, Essex Crescent and Hotchkiss Crescent.

These works will be undertaken during the day, between 6am and 6pm, Monday to Saturday.

## WORKS NOTIFICATION

June – August 2020

In August, the R2P Project will implement a traffic switch which will involve traffic being shifted onto the new surface roads. This will enable works to commence on South Road, while allowing traffic to still travel through the project area.

More information about the second traffic switch will be provided closer to it coming into effect.
