

Regency Road to Pym Street Project

WORKS NOTIFICATION

November – December 2019

R2P Project – Installation of Telstra infrastructure

As part of the R2P Project, the R2P Alliance project team is working closely with Telstra to install telecommunications infrastructure.

Telstra's contractor, Trenchless Pipelaying Contractors (TPC), will install communications conduits under South Road, Regency Road and local streets. Conduits are generally plastic pipes that protect communication cables and optic fibres. The work will be undertaken using a less invasive, trenchless construction methodology whereby infrastructure is laid under the road using a drilling machine to drill conduits horizontally under the road. A small excavator will be used to dig entry and exit pits.

Where will the works be located?

The Telstra works will be undertaken at five locations in Croydon Park and Dudley Park. Please note, South Road and Regency Road will remain open to traffic during these works (*see Map – Telstra telecommunication work locations*):

- Hudson Avenue to Packard Avenue.
- Packard Avenue to Essex Crescent.
- Royce Avenue to Hotchkiss Crescent.
- Rugby Avenue to Minerva Crescent.
- Alvis Road to Regency Road.

When will works commence and how long will they take?

TPC will commence works in **late November 2019** and continue for approximately **six weeks**, weather permitting, from Monday to Saturday between 7am and 6pm. TPC will be onsite at each of the five locations for approximately one week each.

How will the works affect me?

To install the Telstra infrastructure, temporary local street closures will be required at each location for approximately one week during work hours. Property access will be maintained during the works and TPC will manage day-to-day communications with nearby properties.

During these works, TPC will excavate entry and exit pits, drill horizontal conduits, and backfill entry and exit pits. Outside these work hours, local streets will be reopened to South Road and Regency Road, and pits will be fenced off for safety reasons.

WORKS NOTIFICATION

November – December 2019

Traffic management will be implemented to manage road users including traffic, pedestrians and cyclists. Speed and lane restrictions will be in place at South Road and Regency Road in the vicinity of the works.

For any Telstra works questions, please contact TPC's Project Manager on 0419 866 028. For R2P Project enquiries, please contact the R2P Alliance project team via the contact details below.
