

# Regency Road to Pym Street Project

## WORKS NOTIFICATION

January – February 2020

### *Angle Park Stockpile Site*

The Regency Road to Pym Street (R2P) construction works will recommence on Monday 6 January 2020.

#### **When and how will the stockpile site be used?**

The Angle Park stockpile site at 628 – 638 South Road will be used when works recommence.

#### *Water trucks*

From Monday to Saturday, between 7am and 6pm, water trucks will regularly visit the stockpile site to refill water tanks that are used on construction sites to minimise dust.

#### *Night works*

Throughout January and February 2020, night works will be undertaken Monday to Sunday between 6pm and 6am. Respite nights will be scheduled during the works. The stockpile site will be used for the following activities:

- storage of concrete road barriers, which will be transported to construction sites in mid-January;
- stockpiling of earth material; and
- storage of equipment and machinery.

Temporary light towers will be used for night works and the site will be securely locked when not in use.

#### **Questions?**

For more information, please contact the R2P project team on the details below.
