

Regency Road to Pym Street Project

WORKS NOTIFICATION

November 2020

Signal cabinet works along Regency Road, Prospect

As previously advised, a gantry will be installed in the road median along Regency Road, near Hillsdale Street, Prospect.

Gantries are the overhead structures used to support mounted Variable Message Signs, Lane Use Management Systems and Closed-Circuit television (CCTV) (video security surveillance).

As part of the gantry install, two associated signal cabinets, sitting on a concrete pad, will be installed in the footpath, at the corner of Hillsdale Street and Regency Road. Concrete pad works will be undertaken from mid-November 2020, with the cabinets to be installed in late 2020.

Nature and time of the works

The concrete pad works will be undertaken **between 6am and 6pm, Monday to Saturday, commencing Monday, 16 November 2020, for approximately one week**, weather permitting.

How will the works impact me?

Traffic management and signage will be in place to alert road users to the changed traffic conditions.

To safely undertake these works, there will be lane and speed restrictions along Regency Road, near Hillsdale Street.

The junction of Regency Road and Hillsdale Street will be closed at times during the works. Local residents will be given advance notice of the planned road closures.

Road users are asked to plan ahead and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.
